MOBILE APP

1   **DOWNLOAD THE APP**

The Alert360 Lite app for phone and tablet is available for free download on Google Play Store and Apple App Store.

2   **LOGIN TO THE APP**

Enter your provided Alert 360 Lite username and password to login to the app.

3   **SECURITY SYSTEMS**

The security systems menu allows you to easily toggle between multiple systems and/or locations with monitored systems.

4   **VIRTUAL KEYPAD**

After selecting your security system you will see your virtual keypad. The virtual keypad can be used to arm or disarm your system as if you were standing in front of the physical keypad. Use the same code sequence to arm or disarm your system.

5   **VIEWING SECURITY EVENTS**

The events screen can be used to monitor security events that the system has reported.
